

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (original): An additive for a non-aqueous electrolyte of a secondary battery characterized by comprising a phosphazene derivative represented by the following formula (I):

(wherein R<sup>1</sup> is independently a halogen element or a monovalent substituent; and X is an organic group containing at least one element selected from the group consisting of carbon, silicon, nitrogen, phosphorus, oxygen and sulfur).

2. (original): An additive for a non-aqueous electrolyte of a secondary battery according to claim 1, wherein at least one of R<sup>1</sup>'s in the formula (I) is a halogen.

3. (original): An additive for a non-aqueous electrolyte of a secondary battery according to claim 2, wherein the halogen is fluorine.

4. (original): An additive for a non-aqueous electrolyte of a secondary battery according to claim 1, wherein R<sup>1</sup> in the formula (I) is any one of an alkoxy group, a phenoxy group, an alkyl group, an aryl group, an acyl group, an amino group, an alkylthio group and an arylthio group.

5. (currently amended): An additive for a non-aqueous electrolyte of a secondary battery according to claim 1, wherein X in the formula (I) is represented by any one of the following formulae (IA), (IB), (IC), (ID) and (IE):

(in the formulae (IA), (IB), (IC), (ID) and (IE),  $\text{R}^2$ ,  $\text{R}^3$ ,  $\text{R}^4$ ,  $\text{R}^5$  and  $\text{R}^6$  are independently a halogen element or a monovalent substituent; and Y is oxygen, sulfur, or an organic group containing at least one element selected from the group consisting of oxygen, sulfur, carbon, silicon, nitrogen and phosphorus).

SUPPLEMENTAL ELECTION OF SPECIES AND PRELIMINARY AMENDMENT

Attorney Docket No.: Q88776

Application No.: 10/540,558

6. (original): A non-aqueous electrolyte secondary battery comprising a non-aqueous electrolyte containing an additive for a non-aqueous electrolyte of a secondary battery as claimed in any one of claims 1 to 5 and a support salt, a positive electrode, and a negative electrode.

7. (original): A non-aqueous electrolyte secondary battery according to claim 6, wherein a content of the phosphazene derivative in the non-aqueous electrolyte is not less than 1 volume%.

8. (original): A non-aqueous electrolyte secondary battery according to claim 7, wherein the content of the phosphazene derivative in the non-aqueous electrolyte is not less than 2 volume%.

9. (original): A non-aqueous electrolyte secondary battery according to claim 8, wherein the content of the phosphazene derivative in the non-aqueous electrolyte is not less than 5 volume%.

10. (original): A non-aqueous electrolyte secondary battery according to claim 9, wherein the content of the phosphazene derivative in the non-aqueous electrolyte is not less than 10 volume%.
